

Ajay Ghadage

+91 7350900673 — ajayghadage2005@gmail.com — [GitHub](#) — [LinkedIn](#) — [Portfolio](#) — [LeetCode](#)

Professional Summary

Computer Engineering student with hands-on experience in Python, MERN stack development, REST APIs, and scalable web applications. Skilled in building responsive frontend interfaces, backend services, authentication systems, and CRUD-based applications. Familiar with AI/ML concepts, LLM integration, Docker, and cloud platforms. Strong foundation in DSA, DBMS, and software engineering principles, seeking opportunities in Python Full Stack Development.

Education

Savitribai Phule Pune University (SPPU)

2023 – 2027

B.E. Computer Engineering

CGPA: 9.32/10

Class XII (HSC)

Percentage: 76.12%

2023

Class X (SSC)

Percentage: 88.60%

2021

Technical Skills

Languages: Python, JavaScript, Java, C++, SQL

Frontend: React.js, HTML5, CSS3, JavaScript (ES6), Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Django (Basics), FastAPI (Basics)

Databases: MongoDB, MySQL, PostgreSQL (Basics)

AI/ML: Machine Learning Fundamentals, LLM Integration Basics, AI-powered Applications

Tools & Platforms: Git, GitHub, Postman, Docker (Basics), AWS/Azure Basics, Vercel, Render

Core CS: DSA, DBMS, OOP, Operating Systems, Computer Networks

Concepts: CRUD Operations, API Integration, Responsive Design, Agile Methodologies

Projects

Smart Reimbursement Management System

[GitHub](#) [Live](#)

React.js, MERN Stack, Machine Learning

- Developed full-stack reimbursement workflow application using React.js and backend APIs.
- Implemented authentication, CRUD operations, and REST API integration.
- Integrated ML-based anomaly detection for intelligent reimbursement validation.
- Built reusable frontend components and scalable backend modules improving maintainability.

AgriArya – Smart Farming Platform

[GitHub](#) [Live](#)

React.js, MERN Stack, Machine Learning

- Developed AI-powered farming platform with crop recommendation and disease prediction features.
- Integrated AI chatbot support and real-time agricultural insights using REST APIs.
- Designed responsive frontend interfaces and scalable backend services.
- Applied machine learning concepts and intelligent automation for farmer decision support.

SchemeMate – Government Scheme Portal

[GitHub](#)

Node.js, Express.js, MongoDB

- Developed a secure government scheme portal with authentication and RBAC.
- Architected scalable REST APIs and optimized MongoDB data models.
- Implemented backend validation and structured database schemas improving reliability.

Experience

Full Stack Developer Intern

BrightPath Horizon, 2026

- Developed responsive full-stack applications using React.js and backend technologies.
- Integrated REST APIs, authentication systems, and CRUD functionalities.
- Worked with databases and optimized backend queries for better performance.
- Participated in debugging, testing, and Agile-based development workflows.
- Collaborated with developers on scalable application architecture and API integration.

Achievements

- Qualified GATE 2026 with strong Computer Science fundamentals.
- Ranked among top-performing teams in Smart India Hackathon 2026.
- Solved 100+ DSA problems on LeetCode.
- Built and deployed multiple full-stack MERN applications.
