Professional Summary

Computer Engineering student with hands-on experience in MERN stack development, authentication systems, REST APIs, and scalable web applications. Skilled in building responsive frontend interfaces and backend services using React.js, Node.js, Express.js, and MongoDB. Passionate about full-stack development, problem solving, and building production-ready applications.

Education

Savitribai Phule Pune University (SPPU)	2023 – 2027
B.E. Computer Engineering	CGPA: 9.32/10
Class XII (HSC)	2023
Percentage: 76.12%	
Class X (SSC)	2021
Percentage: 88.60%	

Technical Skills

Languages: JavaScript, Python, Java, SQL, C++
Frontend: React.js, Redux, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, JWT Authentication, OAuth 2.0
Databases: MongoDB, MySQL
Tools & Platforms: Git, GitHub, Postman, AWS (Basics), Vercel, Render
Core CS: DSA, DBMS, OOP, Operating Systems, Computer Networks
Concepts: RBAC, CRUD Operations, API Integration, Agile Methodologies

Projects

Smart Reimbursement Management System	GitHub — Live
<i>React.js, MERN Stack, Machine Learning</i>	
- Engineered scalable React.js frontend components and role-based workflow modules. - Implemented secure authentication, REST API integration, and real-time claim tracking. - Built reusable UI components improving maintainability and frontend scalability. - Integrated ML-based anomaly detection for reimbursement validation workflows. - Reduced API response time by optimizing MongoDB queries and backend routes.	
AgriArya – Smart Farming Platform	GitHub — Live
<i>React.js, MERN Stack, Machine Learning</i>	
- Built responsive React.js interfaces for crop recommendation and disease prediction modules. - Integrated AI chatbot support and real-time agricultural market insights using REST APIs. - Designed scalable backend services using Express.js and MongoDB. - Optimized frontend responsiveness and API communication for improved user experience.	
SchemeMate – Government Scheme Portal	GitHub
<i>Node.js, Express.js, MongoDB</i>	
- Built a secure government scheme portal with authentication and RBAC. - Architected scalable REST APIs and optimized MongoDB data models. - Implemented backend validation and structured database schemas improving reliability.	

Experience

Full Stack Developer Intern	BrightPath Horizon — Feb 2026 – Apr 2026
- Built responsive full-stack applications using React.js, Node.js, and MongoDB. - Implemented JWT authentication and RBAC for secure user access management. - Integrated RESTful APIs and optimized backend routes for improved performance. - Collaborated in Agile workflows including debugging, testing, and feature development.	

Achievements

- Qualified GATE 2026 with strong Computer Science fundamentals.
- Ranked among top-performing teams in Smart India Hackathon 2026.
- Solved 120+ DSA problems on LeetCode.
- Built and deployed multiple full-stack MERN applications.
